

for riding the bus

We think bus passengers deserve a pat on the back

You put up with a lot. And for whatever reason you're on the bus today, your selfless action helps everyone. Thank you!

More than **10,000 people** are carried each day on Shrewsbury's buses. That's the equivalent of 6,500 cars taken off our streets.

If more people travelled by bus (or walked or cycled) - and a lot less used a car - our town would have

- more space
- cleaner, healthier air
- young people's future lives wouldn't be turned upside down.

The **climate crisis** is here now - and it is gathering momentum. Bus Users Shropshire supports Extinction Rebellion's call on government to tell the truth about the climate and eco emergencies, and to take legally binding measures to eliminate net carbon emissions by 2025.

For all our sakes, it's time to get on board.
